peach him. He asked me to go to Washington. Another objection by Mr. Herrick stopped the answer. "Would influence Court." "Didn't you have a talk with governor Sulzer in reference to securing someone to influence the action of this court?" Before he could be stopped by an objection, the witness answered "yes." "State that conversation," said Mr. Stanchfield, after Judge Cullen had ruled that the witness might answer. "He asked me to go to Washington," said Ryan, "to see senator Root and ask him to see Wm. Barnes and endeavor to have Republican members to vote that the assembly had no right to impeach him."

After a conference between Sulzer's lawyers they made a request that the answer be stricken out. This Judge Cullen allowed. The court sustained Judge Cullen. Got \$10,000 Loan. Edward P. Meany, attorney for the New York Telephone company, testified that he had "loaned" the governor \$10,000 in cash within a week or ten days after his nomination. Meany said he had paid the contribution in cash because he did not wish it known, for the "gift might be misconstrued." A letter which the governor had written supposedly in connection with the gift and not allowed in the evidence, was reported to have been a recommendation by the governor to president Wilson that Meany be appointed to an ambassadorship. Attorney Hinman stated that little

## FIVE HUNDRED HOME HOUSES ARE WRECKED

Nome, Alaska, Oct. 7.—Wreckage from a terrific storm today marks the business district in Nome. Two miles of territory next to the sea was devastated, the stores and houses along the Behring sea. All of the south side of Front street is gone.

Men and women worked all night in the icy water to save their households effects. The electric light plant was wrecked and telephone service was cut off. The loss is estimated at a million and a half dollars.

There will be much suffering and outside help will be required. Winter is at hand and it will be impossible to get in supplies needed. The steamships Victoria and Corwin which were lying in the harbor, ran to the open sea and escaped damage. All the small boats on the beach were destroyed. Five hundred houses have been demolished and more are falling. Nome is a famous gold camp and the most northerly city in the world, built on a sandy beach. In front of the town there is an anchorage for ships, but steamers do not make a landing. Carcasses and passengers are lying on an aerial tramway station in deep water. The principal part of the town which a dozen years ago had a population of 30,000, is on the east side of Snake river with a long finger extending to the west along a narrow sand spit. The sand spit was rich in gold dust and the early settlers built the cabins there.

Fire later broke out in the storm stricken city and the flames attacked the Pacific Cold Storage plant, where is stored the chief supply of meat for the winter. The fire burning apparatus was destroyed in the gale. The storm is abating. Three unidentified bodies have been

## WILSON BEGINS ANTI TRUST PROGRAM

Washington, D. C., Oct. 7.—A start has been made by president Wilson on his anti-trust program for the December session of congress. He had a long preliminary conference with senator Newlands of Nevada, chairman of the interstate commerce commission which handles trust legislation in the senate. The president also expects to confer in the near future with representative Clayton, chairman of the house judiciary committee.

Senator Newlands said after the conference that he expected the president to transmit some recommendations to his committee early in the December session. These probably will materialize after the president consults attorney general McReynolds and some prominent lawyers outside of the official circle who have been studying the problem for years.

The discussion with chairman Newlands was of a general character, bringing forth no particular scheme of legislation. The president and secretary Taft examined the history and arguments presented for and against various pending bills which would supplement the Sherman anti-trust law by providing for the prevention of holding companies, stock watering and discrimination in prices, the regulation of the size of business and the definition of the word "reasonable" as used by the supreme court of the United States.
